TO WHOM IT MAY CONCERN:

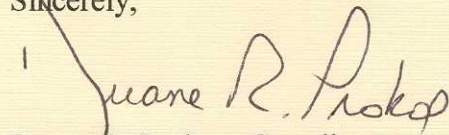

I am very pleased of this opportunity to recommend Mr. Anuj Wahi. I have known Anuj for approximately two years and I can truthfully say that I have never met a more likable and ambitious graduate student of business administration.

Over the past year, I personally found Anuj very organized and conscientious, always courteous to everyone, tactful and very intelligent. Mr. Wahi has clearly set himself apart from his peers at Gannon through an outstanding record of achievement both in and out of the classroom. Anuj's academic record in business administration and varied work experiences show his strong commitment to academic excellence, scholarship, service and holistic development. More specifically, please know that Mr. Wahi was a very thoughtful and insightful graduate student that was capable of working with individuals from a myriad of backgrounds. Again, Anuj has clearly demonstrated excellence, leadership and growth in the classroom as a student and on the job.

I trust it is clear that I recommend this very caring and ambitious graduate to you without reservation and with the greatest enthusiasm. I do so because Mr. Wahi displays in abundance those qualities of character and mind that make for an outstanding graduate employee. More importantly, Anuj has plainly demonstrated by his academic performance, extracurricular activities and work experiences that he has the potential for future success as business professional. Please give Mr. Anuj Wahi every consideration in your decision and please feel free to contact me at (814) 871-7576 or prokop@gannon.edu if you have any questions or require additional information.

Thank you in advance for your consideration.

Sincerely,

Duane R. Prokop, Coordinator
Business, Computer and Information Technology Program
The Dahlkemper School of Business Administration
